To Paul Stoetzer, Senior Campaign Finance Analyst: Per your letter of July 8, 2015, regarding our April Monthly Report: You noted we might have transfered too many non-federal dollars into our federal account to cover the non-federal share of expenses.. All of our transfer of funds from the non-federal account have been transfers for allocated activity made within a 70-day time period. Our report for the period November 25, 2014 to December 31, 2014 reflects a non-federal share of expenses of \$25,510.34 and a transfer from our state account of only \$10,500.00. Thus, much of our January 2015 transfer into the federal account was to cover those December expenses. Please contact me if you have further questions.
